

Environmental Health and Safety performs training for NYU employees, as required by local, state or federal law. Click [here](#) for a list of upcoming training programs descriptions provided.

EHS has also developed a [Regulatory Training Guide \(PDF\)](#) that outlines the training required for each job category to help you determine what training you require.

- [Fire Safety](#)
- [Hazard Communication](#)
- [Hazardous Waste](#)
- [Laboratory Safety](#)
- [Personal Protective Equipment \(PPE\)](#)

Training Requirements

Laboratory Safety - Initial training is mandatory for those who will work in science labs.

Hazardous Waste - Annual training is required if you generate, handle or store hazardous waste.

Contact the EHS Department if you have questions - ehs@nyu.edu or 212-998-1450.
